 THIS IS UNEVALUATED INFORMATION

50X1-HUM

1. The two bridges crossing the Lajta River (Y06) between Moson (Y16) and Magyaróvár (Y16) have been enlarged and reinforced for heavy traffic.
2. The bridge crossing the Tisza River near Polgar (K14) was to be constructed so that it could carry heavy traffic. It was scheduled for completion not later than 15 October 1950.
3. A new road and rail bridge has been constructed between Cserel Island and Taksony (H50). The new railroad line which crosses this bridge joins the main Budapest - Kis Kun Halas (H70) railroad at Taksony; it is now possible for consignments from the Csepel Works to be shipped directly to the south rather than through Budapest.
4. The Russian military officials are said to have ordered the completion by 1 September 1950, of improvements and reconstruction on the Miskolc - Debrecen highway near Nyékkládháza (sic). Underpasses adequate to take heavy traffic were to be built at all road crossings.
